“We received your DVD yesterday and it is brilliant. We were planning on a reccie trip but after seeing your DVD have abandoned that idea as a waste of valuable time and money as it looks so fabulous we would definitely not want to leave once we arrived.

Thanks again for your prompt delivery service and fab DVD.”

These DVD's were a great find they helped me and my family gain the information we needed to make this life changing decision. My 16 year old son needed reassurance that what he was about to embark on was the right thing for him, and now thanks to these he can't wait to get out there.

Hi Tessa, I got the Gold Coast DVD for an Xmas pressie from my mum. It was great to physically see at last what the holiday brochures or property web sites don't show you, We found the DVD to be very informative and helpful.  
**Chris Daly from Ireland**

### **Here's what some migrants now living in Australia have said about the DVD's**

The DVD's are really good, and would have been a benefit to us before we came over. To see how the land lies and what's good and what's bad. Its really good take a look. Duncan previously from Bedfordshire has lived in Australia for four years.

I think the DVD's are a great idea, they give you information before you get here of what your in for, and what the schools are like, medical system and where you would like to live in Australia because its all quite different. Nicky previously from London has lived in Australia for seven years.

I thought it was great and wish I had it before I moved. It would have saved me a lot of time and frustration. Just knowing about the community, and different housing options, and things that are available. Cathy previously from Canada, moved to Australia one year ago.
